

This is an abbreviated listing of Preferred Brand Name and Generic Medications listed on the formulary. This listing includes most, but not all, drugs. All drugs included on the formulary are not necessarily covered by each member's prescription drug benefit plan. The inclusion of a drug on this list does not imply coverage under all plans. Coverage of listed products will be subject to the limitations of the prescription drug benefit plan design. Members should consult their prescription drug benefit manual or contact a customer service representative to determine specific coverage.
