High School Student Tutors
There are students from the PLHS Honor Society that are willing to be hired as tutors for middle school and elementary students. The student services staff has a list of these names upon request. Parents would then be responsible for calling and setting up the tutoring and negotiating price. High school students typically charge between $10-12 per hour.

Peer Genius  www.itspeergenius.com
One-on-one tutoring arranged through this center, employing qualified high school tutors to meet with your student in homes or public areas; $35/hr.
